Hello and Welcome!

Welcome to eduCEO[™] we are grateful that you are here and took the first step to create the life you want! This journey will be full of lessons and gems to help you transition from classroom to CEO!

Since transitioning out of the classroom, my company made over \$100K in just 7 months, tripled our clients, serve two school districts, has trained 1,000 educators, and impacted over 6,000 students to date. I want to show you the roadmap to start monetizing your skills, packaging your expertise, and transition from classroom to CEO using our proven 4-P framework.

As educators, we have so many skills that use every day that we can monetize.

There has never been a better time to start monetizing your skills and become an entrepreneur! Why wait for the "perfect time" only to find that another six months to a year has passed for you? If you wait, you'll be in the same place you are now six months from now, you'll wish you had started today!

Your success depends entirely on your own effort, motivation, commitment, and follow-through. Each individual's results depend on their unique background, dedication, desire, motivation, actions, and numerous other factors. We are excited to support you on our journey and can't wait for you to start monetizing your skills!
